

West Michigan Permaculture Experience

August 16 – 19, 2013

Montague, Michigan 49437

\$400 Includes All
Meals & Materials

Partial Scholarships
Available

EXPERIENCE

COMMUNITY

SUSTAINABILITY

Come learn and experience **permaculture** along the shores of Lake Michigan. Permaculture is a design system for creating sustainable human environments.

We will have two primary venues:

A multi-generational, sustainable, community oriented family farm and a wooded, lakeside cottage setting. We will eat primarily organic, locally grown food prepared by a talented and experienced professional chef.

Our instructors are experienced **permaculture** teachers, authors and practitioners - Peter Bane and Keith Johnson, editors of The Permaculture Activist.
